

# Environmental Information Sheet

**Drum<sup>®</sup>** MAPP Number: 16750

A 45% w/w WG (water dispersible granule formulation) of cymoxanil, a cyanoacetamide-oxime fungicide which can be used on all varieties of early and main crop potatoes. On crops grown for processing, the processor must be consulted before use.

For more information on the conditions of use of Drum see the product label.

Maximum individual dose: 0.25 kg product/ha

Maximum total dose: 2.5 kg product/ha

Maximum number of applications: 10

Minimum interval between applications: 7 days

Latest time of application: 7 days before harvest

Section	Profile
1. WILDLIFE	Drum is not classified as ' <i>Harmful to game and wildlife</i> '.  No risk management is necessary to protect mammals and birds. Drum is not considered to be of risk to game and wildlife when used as recommended.
Mammals and birds	Drum is of low toxicity to mammals and birds.
2. BEES	Drum is not classified as ' <i>Harmful to bees</i> '. Cymoxanil is of low toxicity to bees.  No risk management is necessary to protect bees and there is no requirement to avoid application of the product when bees may be foraging on flowering weeds.
3. NON TARGET INSECTS AND OTHER ARTHROPODS	No risk management is necessary.  Drum poses a low risk to a range of non-target insects and other arthropod species commonly found in and around treated fields.
4. AQUATIC LIFE	Drum is classified as ' <i>Very toxic to aquatic life with long lasting effects</i> '. Care must be taken to ensure that surface waters or ditches are not contaminated with the chemical or the used container. Appropriate containment must be used to avoid environmental contamination.  Drum is not categorised under the LERAP scheme.
5. SOIL AND GROUNDWATER	Cymoxanil degrades rapidly in the environment and therefore use of Drum in accordance with the label recommendations presents a low risk to groundwater.  Earthworms Drum is of low toxicity to earthworms. No risk management is necessary.  Soil micro-organisms When used as recommended Drum is not expected to have adverse long-term effects on soil microbial activity. No risk management is necessary.
6. NON-TARGET PLANTS	When used as recommended Drum is not expected to have adverse effects on non-target plants.

USE PLANT PROTECTION PRODUCTS SAFELY. ALWAYS READ THE LABEL AND PRODUCT INFORMATION BEFORE USE. FOR FURTHER PRODUCT INFORMATION INCLUDING WARNING PHRASES AND SYMBOLS REFER TO THE BELCHIM (UK) WEBSITE ([WWW.BELCHIM.CO.UK](http://WWW.BELCHIM.CO.UK))

Care must be taken to minimise the risk of surface water contamination from farmyard and field sources.
