

## Belchim herbicides on game cover crops

Species	Gamit 36CS	Lentagran WP
	Pre-emergence	Post emergence
Beans	√	X
Borage	√	X
Kale	√	√
Linseed	X	?
Maize	√	√
Quinoa	X	X
Sorghum	√	√
Spring Triticale	√	√
Sunflower*	√	√
Swede	√	√
Red Clover	?	√
Sweet Clover	√	√
White Millet	√	√
Fodder Radish	√	√
Mustard	X	√
Stubble Turnip	X	√
Fodder Beet	√#	?
Canary Grass	?	?
Reed Canary Grass	?	?
Phacelia	√	√
Chicory	√	√

√ = safe to use; x = not safe to use; ? = no data; \* a sequence of the two products will stunt the crop; # 0.1L/ha

**NOTE:** This table is for information only, is based on limited trials evidence and does not constitute a recommendation. Both Gamit 36CS (MAPP 13861 EAMU 1267/12) and Lentagran WP (MAPP 14162 EAMU 0788/09) have off label approvals for use on game cover crops and as such are used entirely at the growers own risk
